

BHIMA CARES
Mission Humanity

Serving Humanity

With Compassion, Care & Devotion

Support for Disabled Children

We provide specialized care and developmental support for differently-abled children through personalized attention, rehabilitation assistance, educational guidance, therapy support, and recreational activities. Our objective is to help every child develop confidence, independence, and essential life skills in a safe and caring environment.

Care for Abandoned Senior Citizens

Our elderly care initiatives ensure that abandoned and neglected senior citizens receive a secure home, nutritious meals, healthcare support, emotional companionship, and a peaceful environment where they can live with dignity and comfort. We believe every senior deserves love, respect, and compassionate care throughout their lives.

Yoga & Meditation Programs

Regular yoga and meditation sessions are conducted to improve physical health, mental wellness, and emotional balance. These activities help children, senior citizens, volunteers, and community members lead healthier and more peaceful lives through holistic wellness practices.

Spiritual Services & Community Development

Daily Temple Puja & Online Live Streaming

Bhima Cares Foundation conducts daily temple rituals and poojas performed by experienced priests, preserving sacred traditions and promoting spiritual well-being. Devotees from anywhere in the world can participate through live online streaming, allowing them to stay connected with divine blessings and religious ceremonies from their homes.

Navratri Celebrations

Every year, Bhima Cares Foundation celebrates Navratri with devotion and cultural enthusiasm. The celebrations include traditional poojas, devotional music, cultural performances, community prayers, and festive gatherings that bring families and devotees together while preserving India's rich spiritual heritage.

CSR Initiatives & Community Service

We actively collaborate with corporate organizations, educational institutions, volunteers, and social organizations through Corporate Social Responsibility (CSR) initiatives. Our CSR activities focus on community welfare, healthcare support, education, environmental awareness, food distribution, elderly care, child welfare, and sustainable social development. Together, we create measurable social impact and build stronger communities through meaningful partnerships.
